

# Registered Nurses

I am one of many Registered Nurse's at Inland Valley Medical Center or Rancho Springs Medical Center. Whether we are for the union or not we demand that our voices be heard through our secret ballot election on January 31st and February 1st. After all we have been through and all we have learned, United Nurses Associations of California (UNAC) must not not make a unilateral decision to block our chance to vote. UNAC has promoted this as our opportunity to be heard and we want to be heard NOW.

Respectfully,
