

RN'S

Some of us are for the union and some of us are not....We believe that John Harris is serious about addressing concerns and improving the quality of care and the quality of work life at Southwest.

We want to give Gino and John six months to evaluate whether they are sincere. At the same time we want to evaluate whether the unions promises are sincere by watching what happens at Corona, and Chino Valley where there is still no contract. We request the union withdraw its petition without prejudice to re-file, and consult with us within six months before refiling.

Respectfully submitted
