

...another **CNA** lie...

CNA says, “**Strikes are rare.**”

REALLY???

According to Kaiser Permanente’s research, CNA has called **more than 234 hospital strikes** in just the last 5 years in California.¹

“Striking for Patient Care”? – is it about patient care, or is it really about more dues dollars for **CNA**?

Isn’t it time to tell the union pushers to just

GO AWAY CNA!
