

# MORE MONEY, MORE BENEFITS...

Sounds great!! MNA is promising a voice, a “seat at the table”. We would all love to make more money and get better benefits! But, can they also promise NO Striking?

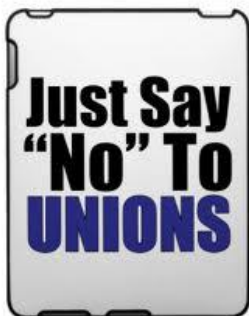

The answer is NO! There is NO guarantee that this is strike risk free!

Are **YOU** willing to strike?

That is the question that every nurse must determine for themselves, are you willing to leave YOUR patients that you care so much about?

If you are not...what leverage is there for negotiations?

Look at St. Vincent Hospital in Toledo, nurses were on strike nearly 2 weeks!

Brought to you by a group of Nurses  
that stand together against unionization
